Healthcare providers, advocates urge telehealth protection

The Coalition to Protect porarily lifted longstanding son services — should be patient advocates, urges the General Assembly to protect innovative telehealth apcontinue to safely access and receive critically needed quality, affordable care beyond the COVID-19 pandemic.

The coalition includes AARP Illinois, American Nurses Association-Illinois, Association of Community Health, Illinois Critical Ac-Association, Illinois Health Care Association, Illinois Occupational Therapy Association, Illinois Primary Health Care Association, Illinois Society of Advanced Practice Nursing, Illinois State Medical Society, The Kennedy Forum, and LeadingAge.

In a letter to members of the General Assembly, the coalition writes:

"Early in the pandemic, Governor Pritzker and the Department of Healthcare and Family Services tem-

group of Illinois healthcare via telehealth for commerproviders, professionals, and cial health plans and Medic-

aid. In response, healthcare providers rapidly invested proaches, so Illinoisans can in new technology, adjusted clinical workflows, and educated staff, patients, and clinicians on telehealth delivery.

"Absent action from the IIlinois General Assembly, providers and professionals will not have the certainty they Mental Health Authori need to continue to invest in ties of Illinois, Health Care and utilize new care delivery Council of Illinois, Illinois tools, and Illinois residents Association for Behavioral will abruptly lose access to the telehealth services they cess Hospital Network, Il- have relied on during the linois Health and Hospital pandemic. To ensure continued investment in the most effective and efficient technologies and patient access to telehealth services, providers, professionals, and Psychiatric Society, Illinois patients need assurance that key flexibilities authorized during the pandemic will continue beyond its end. Therefore, we seek your support in making these significant changes to telehealth delivery permanent."

> The coalition also states that telehealth reform legislation — which guarantees both coverage parity and payment parity with in-per-

Our Telehealth, a diverse barriers to service access based on these key guiding principles:

- 1. Patients shall not be required to prove a hardship or access barrier in order to receive telehealth services.
 - 2. Patients shall not be
 - required to use a separate panel of practitioners or providers to receive telehealth services.
 - 3. State regulated public and private health plans shall provide payment and coverage parity for telehealth services in the same manner as for in-person covered services.
 - 4. State regulated public and private health plans shall not negotiate different contract rates for telehealth

and in-person services; require in network providers to offer or provide telehealth services; require patients to use telehealth services instead of in-person services: and place conditions, treatment limitations, and requirements on telehealth that are more restrictive or stringently applied than those established for in-person services.

5. Providers shall deliver services within the scope

- of their license or certification, unencumbered by geographic or facility restrictions, for any services delivered via telehealth.
- 6. Providers may provide distant site services as long as they are licensed, registered, certified, or authorized to provide those services in Illinois.
- 7. Providers, with their patients, shall determine which healthcare services and modes of virtual communica-

tion are most appropriate for delivery via telehealth.

- 8. Originating site locations, including the patient's home, in accordance with COVID-19 Executive Order No. 7 shall be permitted.
- 9. Providers and practitioners shall determine the appropriateness of specific sites and technology platforms/vendors for a telehealth encounter, as long as delivered services adhere to privacy laws.
